Ordering Malaria Tablets

Not all vaccinations are available on the NHS; some travel vaccines are ordered on a private prescription i.e. Malaria tablets and the Practice will charge a fee of £15.00.

The Practice recommend patients order their malaria tablets via the recommended websites below or visiting your local Boots Chemist, where they can be purchased over the counter.

First Steps on your journey

If you're planning to travel outside the UK, you may need to be vaccinated against some of the serious diseases found in other parts of the world.

Vaccinations are available to protect you against infections such as Yellow Fever, Typhoid and Hepatitis A.

In the UK, the childhood vaccination programme protects you against a number of diseases, but doesn't cover most of the infectious diseases found overseas. What to expect next: Which jabs do I need? You can find out which vaccinations are necessary or recommended for the areas you'll be visiting:

www.fitfortravel.co.uk

Some countries require you to have an International Certificate of vaccination or Prophylaxis (ICVP) before you enter. For example, Saudi Arabia requires proof of vaccination against certain types of Meningitis for visitors arriving for the Hajj and Umrah pilgrimages.

Many tropical countries in Africa and South America will not accept travellers from an area where there's Yellow Fever unless they can prove they've been vaccinated against it. For more information please visit

<http://www.nhs.uk/Conditions/Travel-immunisation/Pages/Immunisations.aspx>

Travel Vaccination Service

The surgery offer a Travel vaccination service which can be accessed by completing a form on line via the practice website (www.boamhp.co.uk) or by completed a Travel Vaccination form available from reception

Please take note of the following points:

- **EACH person in your family/party will need to complete a separate form & answer ALL questions**
- **Not all vaccinations are available on the NHS (See Travel Vaccinations Price List overleaf)**

Please be aware that you will *not* be seen without filling in the Pre Travel Questionnaire least 8 weeks before your departure date

What to expect next:

Completed forms will be given to Jacqui Jarvis (*Medical Receptionist & Patient Liaison Officer*) who will review your needs and telephone you to discuss your answers with you to ensure that you are fully protected. and then an appointment can be made for you to attend the travel clinic with the Nurse. Answers from your pre-travel questionnaire will help us work out the appropriate course of vaccinations for your destination/s and for your specific itinerary.

Please bring your travel book to the appointment if you have one, the nurse can update it accordingly. These can be obtained from any Travel vaccine clinic

Frequently asked Questions

1. Why do I have to submit my pre-travel questionnaire 8 weeks before my departure date?

Some vaccinations will require a course of injections and will need time to be fully effective. You will need to allow for this and will need to start your vaccinations well in advance of your travel date. If you do not allow enough time before you travel, we may not be able to offer you an appointment early enough for you to have the full protection of the vaccinations prior to the date of travel. This is likely to put your health at considerable risk when you do travel.

Appointments will be held at:

St Margaret's Surgery

Bridge Street

Bradford on Avon

Wiltshire

SN12 1BY

2. What if *don't* have 8 weeks notice before my departure date?

Should you be unable to submit your questionnaire 8 weeks prior to your departure date then an emergency private appointment may be offered to you. Private appointments cost £45/30 minute appointment and this does not include the cost of private vaccinations; however NHS vaccines will not incur an extra charge (see Travel Vaccinations Price List for details overleaf).
